

SOFILE — PRIVACY POLICY

Last updated: May 26, 2025

Version: 2.0

1. Introduction

Sofile Tech LLC ("Sofile", "we", "us", or "our") is committed to protecting your personal data. This Privacy Policy explains what personal data we collect, how we use it, who we share it with, and what rights you have in relation to it.

This policy applies to all users of the Sofile platform accessible at www.sofile.io (the "Service"). It covers data collected via the web application, marketing website, and any related communications.

We act as the data controller for personal data processed under this policy. Our contact details are at the end of this document.

2. Data We Collect and Why

2.1 Account Data

When you register for the Service, we collect:

- Email address — used to identify your account, send transactional notifications, and provide support.
- Password — stored in hashed form via AWS Cognito. We never store or have access to your plaintext password.

Legal basis: Performance of a contract (Art. 6(1)(b) GDPR).

2.2 Storage Provider Credentials

To connect third-party storage providers, you provide credentials such as:

- AWS Access Key ID and Secret Access Key
- Backblaze application key ID and application key
- IBM COS API credentials
- Google Cloud Storage service account keys
- OAuth 2.0 tokens for Google Drive, Dropbox, and Microsoft OneDrive

These credentials are encrypted at rest using industry-standard encryption and in transit via TLS. They are used exclusively to perform storage operations on your behalf within the Service. They are never shared with third parties, used for any purpose other than executing the Service, or accessed by Sofile personnel except in the case of a documented support request with your explicit consent.

Legal basis: Performance of a contract (Art. 6(1)(b) GDPR).

2.3 Usage and Analytics Data

We use Google Analytics 4 (GA4) to collect anonymized usage data, including:

- Pages and features visited
- General geographic region (country-level)
- Browser type and operating system
- Session duration and navigation patterns

GA4 is configured with IP anonymization enabled. We use this data solely to understand how users interact with the Service and to improve it. We do not use this data for advertising, profiling, or behavioral targeting of any kind.

GA4 uses cookies and similar technologies. For EU users, analytics cookies are only set after you provide consent via our cookie consent banner. You may withdraw consent at any time.

Legal basis: Consent (Art. 6(1)(a) GDPR) for EU users; Legitimate interests (Art. 6(1)(f) GDPR) for non-EU users where analytics are permitted without consent.

2.4 Technical and Log Data

Our hosting infrastructure (AWS) automatically collects standard server log data, including IP addresses, access timestamps, and request metadata. This data is used for security monitoring and operational purposes and is retained for up to 90 days.

Legal basis: Legitimate interests (Art. 6(1)(f) GDPR) — specifically, the interest in maintaining the security and integrity of the Service.

2.5 Payment Data

We do not collect or store payment information. All payment processing is handled by Paddle.com Market Limited, our Merchant of Record. When you make a purchase, you transact directly with Paddle. We receive only a confirmation of payment status (success or failure) — no card numbers, bank details, or billing addresses are transmitted to or stored by us. Paddle's privacy policy applies to all payment data: paddle.com/privacy.

3. Data We Do Not Collect

For clarity, Sofile does not collect or store:

- Your media files, videos, photos, or documents. All files remain on your connected storage providers.
- Phone numbers or physical addresses.
- Sensitive personal data (health, ethnicity, political opinions, etc.).
- Data from children under 18 years of age.

4. Cookies

4.1 Essential Cookies

We use session cookies set by AWS Cognito to maintain your authenticated session. These are strictly necessary for the Service to function and do not require consent.

4.2 Analytics Cookies

We use Google Analytics 4 cookies (`_ga`, `_ga_*`, `_gid`) to collect the anonymized usage data described in section 2.3. For users in the European Economic Area (EEA) and UK, these cookies are only placed after you explicitly consent via our cookie banner. You may decline or withdraw consent at any time; this will not affect your ability to use the Service.

4.3 Managing Cookies

You can manage cookie preferences at any time via the cookie settings link in the footer of our website, or by adjusting your browser settings. Note that disabling essential cookies may prevent the Service from functioning correctly.
